EASTWESTDESIGNS | BEDROOM COLLECTION

Making the right choice | All furniture is not created equally

It's what you don't see that's as important to the quality and longevity of East West Designs bedroom furniture as its visual appeal.

Craftmanship and attention to detail are the cornerstones of every East West Designs product to ensure your choice gives years of trouble free use.

With that in mind you can choose East West Designs bedroom furniture secure in the knowledge that your choice is backed by:

Structural Warranty	10 years
----------------------------	-----------------

Hardware Warranty	10 years
--------------------------	-----------------

Our warranty belongs to the original owner and applies to furniture manufactured by East West Designs used in domestic situations only.

When you choose from the range of East West Designs' beds or bedroom furniture you are investing in beautifully finished, hand crafted pieces of New Zealand made furniture.

Our Classic and Urban Collections provide a range of bed and bedroom furniture designs manufactured and finished by our own skilled tradesmen to help you create your own space, with your sense of design and style.

Your space. No other room in your home has such a huge impact on your emotional and physical wellbeing as your bedroom.

At East West Designs we understand that and use the natural warmth and beauty of wood to help create the design style you need.

Wood provides a natural, versatile resource that is inherent in its use for furniture and appreciated globally for its unique qualities.

If attention to detail, traditional craftsmanship and quality materials are important to you – then you've come to the right place.

East West Designs' beds and bedroom furniture are design statements in their own right.

Beautiful pieces of bedroom furniture, lovingly crafted from carefully selected native and exotic timbers.

Super King	W 1830	L 2030	H 350

REFLEX UPHOLSTERED PIVOTECH BASE

For those who want the full benefit of a Pivotech flexible slat support system but don't want the look or size of a frame. Reflex bases are the same overall width and length of a mattress and so don't take up any additional floor space. They are also supplied fully assembled. Just position in your room, adjust the slats, and place your mattress. King and Super King bases are supplied in two pieces to make them easier to handle particularly on tight stairwells. Upholstered in a choice of 3 standard colours (Ebony, Graphite and Stone) or in your own fabric if required, Reflex bases are another smart sleep system solution from East West Designs.

MATTRESS SUPPORT SYSTEMS

All East West Designs beds* can be supplied with either a Solid Slat Platform or a Pivotech® Flexible Slat System.

SOLID SLAT PLATFORM

Today many mattresses are designed to combine the duties of both comfort and full support within the mattress construction.

A Solid Slat Platform is best suited to this type of mattress. The slats are spaced to provide good ventilation to the underside of the mattress for a drier, healthier sleep environment.

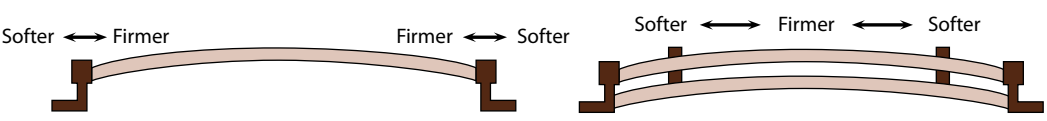

All bed frames double size and bigger have a centre support rail fitted as standard.

This eliminates central sagging in the slat platform and potential mattress damage due to insufficient support.

PIVOTECH® FLEXIBLE SLAT SYSTEM – YOU'RE IN CONTROL

Using the latest in European slat technology, Pivotech® provides East West flexible slat beds with the ability to customise each side of the bed to suit individual needs. The Pivotech® slat housings (shoes) can be adjusted for firmness while still allowing the slats to move and align themselves with the curvature of your body.

Pivotech® is uniquely designed to provide adjustable postural support according to your height, weight and comfort requirements for each side of the bed. Because your side of the bed can be individually set, partner disturbance and roll together can be virtually eliminated. Options like these allow you to control Pivotech® for an even better nights sleep.

*Except Reflex. Reflex available with Pivotech® only.
